

ISAAC YUSUF

AI Data Specialist | Tech-Focused Biochemistry Graduate
isaacyusuf10@gmail.com | +234 816 202 6319
Nigeria | Open to Remote & International Opportunities

PROFESSIONAL SUMMARY

Analytical and detail-driven professional with experience supporting AI systems through data evaluation, localization review, and quality control processes. Background in biochemistry provides strong research, structured documentation, and critical analysis skills. Experienced in improving digital content relevance, assessing system outputs, and maintaining high accuracy standards in fast-paced remote environments.

TECHNICAL SKILLS

AI & Search Evaluation: Search result comparison, content relevance review, AI response assessment
Data & Analysis: Structured documentation, quality assurance, analytical reporting
Tools: Microsoft Office Suite (Excel, Word), Adobe Photoshop
Programming: Foundational programming knowledge
Languages: English, Hausa

PROFESSIONAL EXPERIENCE

Uber AI

Localization & Content Reviewer | October 2025 – December 2025

- Reviewed and adapted digital content to ensure cultural and linguistic suitability for target audiences.
- Assessed translated materials for clarity, tone consistency, and contextual accuracy.
- Provided structured feedback to improve content usability and regional alignment.
- Maintained productivity targets while meeting strict quality benchmarks.

Crowdgen by Appen

AI Search Quality Evaluator | September 2025 – November 2025

- Analyzed and compared search engine outputs to determine result relevance and ranking effectiveness.
- Applied evaluation guidelines to assess accuracy, intent matching, and content usefulness.
- Documented findings in structured formats to support algorithm refinement.
- Contributed to continuous system improvement through consistent and objective review processes.

Lafia Clinic, Kontagora, Niger State, Nigeria

Laboratory Intern | 6-Month Internship

- Conducted routine clinical laboratory procedures and ensured accurate result documentation.
- Processed biological samples following safety and compliance standards.
- Supported laboratory quality control measures and maintained organized records.
- Collaborated with medical personnel to facilitate timely diagnostic reporting.

EDUCATION

Ibrahim Badamasi Babangida University

Bachelor of Science (B.Sc.) in Biochemistry

RESEARCH EXPERIENCE

Mineral Composition Study – Experimental Data Analysis Project

- Designed and executed a controlled feeding experiment.
- Analyzed mineral composition data using structured research methods.
- Produced a comprehensive scientific report presenting findings and interpretations.
